

VETERINARY MEDICAL CENTER - EQUINE

## Equine Top Priorities

You have the opportunity to support both education and research, as well as some of the priority needs for the Equine Service outlined below.

---

### **Fund a 3-Year Residency, MOST NEEDED**

**\$80,000, Annually**

This includes salary and benefits for one resident. In addition to teaching students and seeing patients, residents conduct a research project.

### **Standing CT Unit, MOST NEEDED**

**\$2.3 Million**

This new technology would allow for advanced imaging of the equine head and neck without general anesthesia.

### **Sponsor a Resident**

**\$3,000**

Residency programs are usually over a 3-year period and provide intense learning opportunities. Sponsor a resident by assisting with the cost of textbooks, computer and statistical software, learning aids, and continuing education events. This gives our residents the opportunity to learn the latest information and to present the results of their research at national meetings and short courses.

### **Wireless Radiography Unit**

**\$25,000**

Wireless plates can be used with any x-ray generator and allow for greater safety and efficiency without cords. This equipment would be used for our sports medicine cases and in the operating rooms.

## VETERINARY MEDICAL CENTER - EQUINE

### **Neurology Isolation Stall**

**\$100,000**

This special stall is designed to keep horses with neurological issues safe and comfortable while protecting other patients. It offers extra space for gentle handling and includes features that reduce stress and prevent the spread of illness. Our goal is to provide the best care in a calm, secure environment.

### **PET Scan**

**\$250,000**

A PET scan provides detailed 3D images of your horse's lower limbs to detect issues like stress fractures or tendon injuries early. The scan is quick, safe, and performed while your horse remains standing under light sedation. This advanced imaging helps veterinarians diagnose problems sooner and monitor healing more accurately.

### ***There are more ways to make an impact.***

One of our advancement team members would be happy to come up with a giving strategy tailored to fit your needs. For more information about how to give, please contact us at 614-688-8433 or [CVMAdvancement@osu.edu](mailto:CVMAdvancement@osu.edu).
