

Veterinary Medical Center Wish List

Ophthalmology (April 2020)

Any amount - The Dr. Milton Wyman Residency Fund in Veterinary Ophthalmology

The endowment was established in honor of Dr. Milton Wyman to help support a residency in Ophthalmology at the Ohio State College of Veterinary Medicine. Our goal is to fully fund this endowed residency, so we can consistently fund a second resident in the service. We are currently over one-third of the way to our \$1.5M goal.

Any amount - Veterinary Medicine Ophthalmology Support Fund

Supports training, patient care, education, and equipment for the Ophthalmology service at the Veterinary Medical Center. Provides needed funding for computers, clinical equipment and technology, travel for continuing education, etc.

\$500 – Library fund

Used every two years to provide current ophthalmology textbooks for our students, residents and interns.

\$1,500 – Sponsor Travel for Faculty, Residents, and Technicians

Sponsor travel for faculty, residents, and technicians for continuing education or to present research at conferences such as the American College of Veterinary Ophthalmology Conference.

\$3,000 – Sponsor a Resident

Sponsor a resident by assisting with the cost of books and continuing education. This gives our residents the opportunity to learn the latest information and to present the results of their research at national meetings and short courses.

\$6,500 – Optional Anterior Segment OCT Imaging Adapter and Imaging Software

Used in both clinical and research applications.

\$10,000 – Specialized laser unit primarily used to perform Photodynamic Therapy

Used primarily to treat Squamous Cell Carcinoma and Immune-mediated Keratitis in horses.

\$100,000 – Optical Coherence Tomography Research resolution upgrade

Used primarily for research purposes, but research would have clinical applications.
